

The background features a vibrant blue-green water ripple pattern. A white rectangular area is overlaid on the left side, containing a pattern of small teal polka dots. A dark blue shape is overlaid on the right side, partially overlapping the white area.

**COMING SOON**

to a meter box near you!

*Congrats!*

The Harris County MUD 374 Board of Directors have approved for your water meter to be changed out to an Automated Meter Reading (AMR). The new AMR system provides residents with the tools they need to see their daily water use, as well as set up leak alerts.

Beginning October 2019, Inframark will convert Harris County MUD 374 meters to the AMR devices, with a projected end date of February 2020. Thank you for your patience, and please be on the lookout for more communication in the future.
